OA MOBILE SCHOOL DECEMBER HIGHLIGHT

Larissa guiding the students of Kg. Teraling together with teacher Ayuni

WHAT'S NEW IN MOBILE SCHOOL

1. Teachers' Training

MOBILE SCHOOL IS CURRENTLY IN 6 VILLAGES, WITH 105 STUDENTS.

TEACHER EMPOWERMENT- TRAINING AND MONITORING (PART 3)

In December month, Larissa completed part 3, which is the last of her training series. Similar to the previous 2 sessions in October and November, the sessions focused on:

- Practical learning with the children
- Co-teaching with the teachers
- One-to-one theory sessions with the teachers : explaining key concepts for specific topics in BM and Mathematic chapters, importance of following the LINUS construct

TEACHER EMPOWERMENT- TRAINING AND MONITORING (PART 2)

Prac Learning - Learning Fractions and Measurement Units

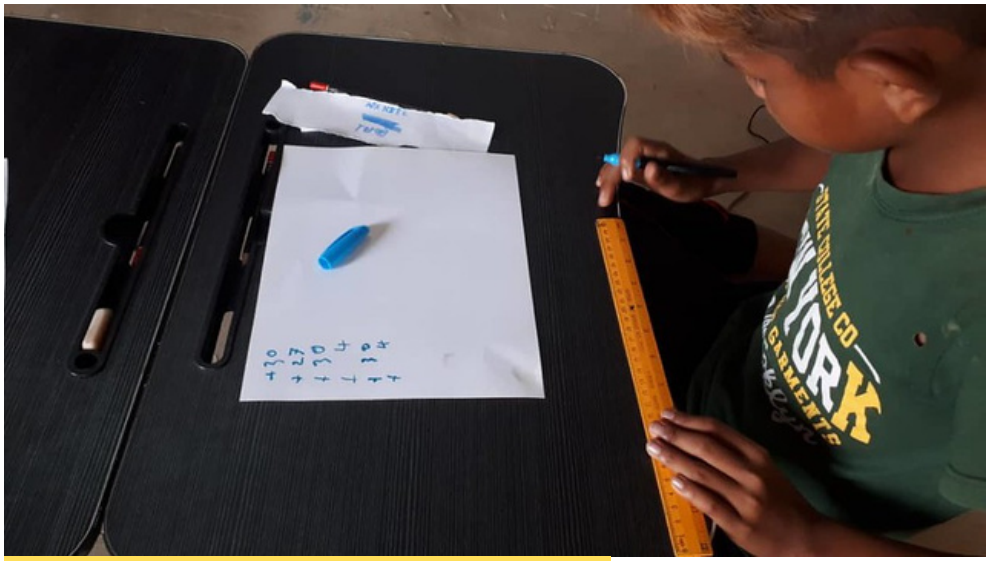
Among the Mathematics chapters covered were fractions and SI measurements.

Using a hands-on approach, Larissa asked the students to arrange some stray pieces of wood within the village to form a 'window' frame, to depict a square, divided into 2, and further divided into 4. The children really enjoyed learning this way and grasps the concept quickly.

For learning about the modern metric system (International System of Units - SI), Larissa gave the students rulers and measureing tapes to measure items around their learning facility, such as their table, window, television, etc.

STUDENTS LEARNING FRACTIONS USING WOOD PIECES FOUND WITHIN THEIR VILLAGE

PUTTING PRACTICAL LEARNING INTO WRITING - LEARNING ABOUT FRACTIONS



STUDENT MEASURING THE LENGTH OF HIS STUDY TABLE

TEACHER EMPOWERMENT- TRAINING AND MONITORING (PART 2)

One-to-one Training Sessions

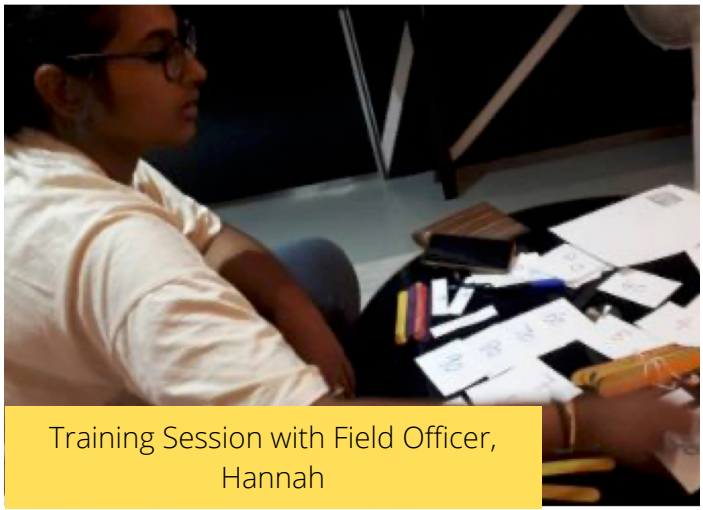
Larissa successfully completed one-to-one training sessions with teachers of all villages, with exception for Kg. Petoh, which had enforced visitor restrictions due to recent Covid-19 cases detected within the village.

Training session in Kg. Teraling

Training session in Kg. Bukit Biru

Training session in Kg. Terubing 2A

Training session in Kg. Jenit



Training Session with Field Officer, Hannah

Larissa noted marked improvement in the BM and Mathematics lessons conducted by the teachers, in terms of preparation (lesson planning) and execution (class management and engagement).

More details will be provided in the Mobile School Final Report.
