OA MOBILE SCHOOL JANUARY 2022 HIGHLIGHT

Global Peace's Officer preparing the students for their assessments

WHAT'S NEW IN MOBILE SCHOOL

1. Student Assessments for M&E analysis
2. Completion of 'Rumah Pelajar' in Kg. Bukit Biru
3. Usage of educational media in Kg. Terubing

MOBILE SCHOOL IS CURRENTLY IN 6 VILLAGES.

STUDENT ASSESSMENTS FOR MONITORING AND EVALUATION ANALYSIS

We started the year with completion of student assessments catered to the various learning levels of children across the 6 villages.

Hannah, our Field Officer employed both the LINUS construct; and higher level model test papers to ensure the students were being evaluated fairly, accordingly to their learning level, and not directly following their age group.

More details about the assessment will be shared in the 2021 Final Report.

COMPLETION OF 'RUMAH PELAJAR' IN KG. BUKIT BIRU

In 2021, the community in Kg. Bukit Biru worked together to build a 'Rumah Adat' (community hall) and a Rumah Pelajar. After months of hard work, it is completed. The Rumah Pelajar is also equipped with book shelves, books and a TV.

Recently the community teachers (Faridah and Faezah) have started to teach the children at the Rumah Pelajar, instead of their own house. We are happy to note that the class attendance has increased after the shift of class location.

USAGE OF EDUCATIONAL MEDIA IN MOBILE SCHOOL CLASSES

Kg Terubing's children now get to watch pre-loaded educational cartoons and musical videos after their class. In the future, we hope to include English medium media as well to improve the children's exposure to the language.
